ÆSTETIK BYGGER PÅ 3 GRUNDPRINCIPPER

I et godt foto findes harmoni og balance,
og plads til fortællingen.

3 principper jeg arbejder med for at sikre det:

1. Komposition

(styret gennem vinkel og beskæring)

2. Lys & farver

(kontrollerbart alt efter set/miljø)

3. Stemning

(indlevelse i motiv)

1. Komposition
(styres gennem vinkel og
beskæring)

2. Lys & farver

(kontrollerbart alt efter om opgaven løses på et set eller i et miljø)

Portræt i miljø kræver medbragt lys og et godt øje for elementer i miljøet der kan forstærke portrættet.

3. Stemning

(Indlevelse/kontakt
med motivet)

Hvilket er afgørende for om de 2 første principper fungerer, og om fortællingen får plads til at udfolde sig.

Princip nummer 3 er det vigtigste æstetiske element og kerneopgaven i alle projekter jeg løser.

A photograph showing several hats, including a prominent grey fedora with a dark band, resting on wooden stands. The scene is dimly lit, with soft shadows and highlights on the hats' surfaces. The text '5. INDUSTRI PORTRÆTTER' is overlaid in white, sans-serif font across the center of the image.
